Building a stronger community . . .

When **Hanan** left war-torn Iraq, she left behind proof of education. With her tutor’s help, she is studying for her H.S. diploma while working 50+ hours a week.

**Marie**, originally from Ivory Coast, improved her English and graduated with a nursing degree from Husson University.

With better literacy, **Cindy** now works as a Telemetry Technician in a cardiac care unit at a local hospital.

**for ALL of us!**
